Volume 8 – WOODLAND/WALTON CHASE CAR SURVEY

Vehicle survey - Woodlands and Walton Chase.

Planning application 13/03061. 2000 houses on Thorp Arch Trading Estate.

The attached survey is the source document for our information on local car ownership, numbers of residents working locally and trip generation. The data feeds into our **objections** related to transport/highways issues, and the concept of live/work on site.

The reasons that these two housing developments were chosen to be surveyed are:

- They are very close (about 1 km) to the TATE site.
- They exit onto Church Causeway.
- They were built 8 and 12 years ago respectively, and feature housing of similar nature and price to that proposed to be built on TATE, including affordable housing.
- They have given residents the opportunity to work on TATE.
- They have given everyone who currently works on TATE the opportunity to move to be adjacent to their work.

The results of this survey are discussed elsewhere, in our other objections. However providing you with the raw data shows the extent of the survey, and how complete it was. We obtained responses from 85 out of 127 properties.
